

## About us

Circle Care is a forward-thinking clinic located in Leslieville at Gerrard Square. Gerrard Square is a busy mall with heavy foot traffic brought in by anchor stores such as Wal-Mart, Home Depot, Planet fitness, LCBO, and Food Basics to name a few. We are 2,000 square feet of the mall, and will have a gym space for rehabilitation therapy and nine treatment rooms, one of which will be used for couples massages. The model as suggested by the name of the clinic, will be a team of multi-disciplinary allied health care providers, collaborating together to be a part of the patient's circle of care. Health care providers who will be joining the team include: physiotherapists, chiropractors, chiroprodists, massage therapists, psychotherapists, naturopaths, athletic therapists, dieticians, and osteopaths. Work life balance is something we value and promote at Circle Care. Therefore, we will have a team of administrative staff to provide full support. Practitioners will use the EMR system, Jane, for efficient charting and booking. We will be ready to accept new patients in the fall of 2022.

This is the ideal opportunity for anyone looking for mentorship and guidance, and a collaborative practice model to learn and grow from each other while helping patients become healthier. Key factors that we offer our associates that are essential for any rewarding long- term career include:

- Administrative support so that you can truly focus on patient care and your practice while providing work-life-balance
- Heavy foot traffic providing everlasting growth and new patients
- Access to an in house gym
- Vertical growth opportunities and leadership roles within the company
- Mentorship and guidance through structured learning and informal collaboration with colleagues

## Roles and Responsibilities

- Strong ability to build rapport with patients
- Effectively assess and understand the patient's symptoms, health history and treatment goals to implement effective treatment plans
- Work well with other healthcare professionals to develop and implement treatment plans
- Provide remedial exercises when needed to help improve and maintain patient's health
- Maintain and accurately document records of treatments provided

## Qualifications

- Licensed and in good standing with affiliated college(s)
- Appropriate and valid liability Insurance
- Strong sales, communication and customer service skills

## Benefits

- Upon qualification, you will be eligible to participate in our health benefits plan
